

Environmental Policy

JKL Mouldings Ltd. manufacture precision thermo-plastic moldings for the electrical, mechanical and automotive sectors. The scope of the business for ISO certification is as follows "The manufacture and supply of injection moulded thermoplastic products and the assembly of manufactured components to customer specification".

The management and all colleagues team at JKL Mouldings Ltd are committed to implementing and maintaining a management system that will ensure continuous improvements in the environmental performance of the Company and this system will be reviewed annually in accordance with ISO14001 environmental standard.

The Company recognises and accepts that as an employer it has a legal duty and responsibility to manage the environmental impacts of its activities, products and services. We are fully committed to improving environmental performance across all of our business activities, and will encourage our business partners, members of the wider community and other interested parties to join us in this effort. The company are committed to the prevention of pollution.

All applicable regulatory, legislative and other requirements will be met or surpassed, we will continually improve our environmental performance specifically in the reduction and disposal of waste and the efficient use of energy.

We:

- ✓ Have developed a system to identify applicable environmental legislation, which we will comply with at all times.
- ✓ Ensure continuous improvements by systematically reviewing our management system and updating our targets and objectives as necessary.
- ✓ Actively promote recycling and reuse of material within the company and with our customers.
- ✓ Will identify and seek to reduce significant environmental aspects and impacts that arise from our processes and operations.
- ✓ Involve and train employees to promote an awareness of environmental issues and responsibilities.

It is the responsibility of the leaders and staff to ensure that this policy and the requirements of ISO14001:2015 and other standards, quality and legal requirements are understood, implemented and maintained by all employees and other interested parties.
